Air Turbines

Unprecedented Power

Ti-Max Z Turbine Z990 / Z890 Powerful 44W*

* Z990L air turbine at 0.42 MPa air pressure

More power means better performance and time saving, for the greatest satisfaction of both dentist and patient. This is the perfect balance NSK created with the new Ti-Max Z Air Turbine: unprecedented power, for a working experience which combines safety, comfort and usability.

Better performance in less time

Maximum safety

More comfort and usability

• Solid titanium body with DURAGRIP® coating • Cellular glass optics • Ceramic ball-bearings • 2 years warranty • Clean Head System • Quattro-Spray • Quick Stop • Simple cartridge change • Z990/Z890: Microfilter, DURAPOWERCHECK®

Surgical

Osseo 100

ASSESS OSSEOINTEGRATION

Osseo 100 measures implant stability to support decision making on when to load an implant. Especially important when working with shorter treatment time or managing risk patients. The uncomplicated procedure that measures ISQ allows the implant loading period to be planned in advance. The reconstruction of crowns and bridges can be monitored to optimize timing to decrease the risk for failures. Measurements can be made without unnecessary impact since the equipment does not come into physical contact with the implant or abutment.

Osseo 100
Only 3 steps
necessary.
Learn more in the
video.

VIVA MATE G5

PORTABLE MICROMOTOR WITH LIGHT FOR MOBILE USE

Wherever this mobile micromotor/control unit combination is used, in mobile dentistry or in the dental lab: thanks to its strong batteries it can be used totally independent even without a plug for up to 2 hours. With a rotation spectrum of 3,000 to 30,000 rpm it can be used for all types of dental applications when used with the right handpiece or contra-angle (not included in the set).
